

**THE VARIABLE ANNUITY LIFE INSURANCE COMPANY
SEPARATE ACCOUNT A**

**Supplement Dated October 28, 2021
to the Prospectus of**

**Fixed and Variable Deferred Annuity Contracts
Independence Plus dated May 3, 2021**

This Supplement updates certain information in the *Fee Tables* section of the Prospectus. The *Total Annual Mutual Fund Operating Expenses* table, found on page 4 of the prospectus, and the corresponding *Example* is deleted and replaced with the information below, reflecting changes in Mutual Fund expenses.

The next table shows the minimum and maximum total operating expenses charged by the Mutual Funds that you may pay periodically during the time that you own the Contract. More detail concerning each Mutual Funds' fees and expenses is contained in the prospectus for each Fund.

Total Annual Mutual Fund Operating Expenses	Minimum	Maximum
(Expenses that are deducted from the assets of a Mutual Fund, including management fees, distribution and/or service (12b-1) fees, and other expenses)	0.32%*	0.90%*

*The Mutual Fund with the lowest total annual fund operating expenses (0.32%) is the Stock Index Fund and the Mutual Fund with the highest total annual fund operating expenses (0.90%) is the Asset Allocation Fund.

Example

This example is intended to help you compare the cost of investing in the Contract with the cost of investing in other variable annuity contracts. These costs include Contract Owner/Participant transaction expenses, Contract fees, Separate Account annual expenses and the Variable Account Option fees and expenses.

The example assumes that you invest a single Purchase Payment of \$10,000 in the Contract for the time periods indicated. The example also assumes that your investment has a 5% return each year and assumes the maximum fees and expenses for a Variable Account Option (1.90%). The example does not include the effect of premium taxes upon annuitization, which, if reflected, would result in higher costs. Although your actual costs may be higher or lower, based on these assumptions, the costs would be:

(1) If you surrender your Contract at the end of the applicable time period:

<u>1 Year</u> \$676	<u>3 Years</u> \$1,137	<u>5 Years</u> \$1,603	<u>10 Years</u> \$2,365
------------------------	---------------------------	---------------------------	----------------------------

(2) If you annuitize at the end of the applicable time period or you do not surrender your Contract:

<u>1 Year</u> \$213	<u>3 Years</u> \$646	<u>5 Years</u> \$1,103	<u>10 Years</u> \$2,365
------------------------	-------------------------	---------------------------	----------------------------

The following example assumes that you invest \$10,000 in the Contract for the time periods indicated and that your investment has a 5% return each year, but assumes the minimum fees and expenses for a Variable Account Option (1.32%). Although your actual costs may be higher or lower, based on these assumptions, the costs would be:

(1) If you surrender your Contract at the end of the applicable time period:

1 Year
\$620

3 Years
\$967

5 Years
\$1,301

10 Years
\$1,738

(2) If you annuitize at the end of the applicable time period or you do not surrender your Contract:

1 Year
\$154

3 Years
\$467

5 Years
\$801

10 Years
\$1,738

Note: This example should not be considered representative of past or future expenses for VALIC Separate Account A or for any Mutual Fund. Actual expenses may be greater or less than those shown above. Similarly, the 5% annual rate of return assumed in the examples is not an estimate or guarantee of future investment performance.

Please keep this Supplement with your Prospectus.
